

Instrument Loaner - Letter

Dear Parents/Guardians,

Instruments are loaned throughout the year to students who show great interest in our band program, but are unable to get an instrument due to cost of economic hardships. We only have a few instruments, therefore a limited number are furnished to students.

Instruments provided to students are personal instruments owned by Mr. Fowler, while some are school owned. It is imperative that proper care is given to these instruments at all times.

Instruments will need to be turned back in at the end of the school year in the same condition they were given to the student.

Students will still be required to purchase a Standards of Excellence book, and other Essentials.

The care kit will include things such as a cleaning cloth for flutes, and valve oil for brass instruments.

These items can be purchased at local band music stores.
